

FINductives

Inductive components by Oy FINductives Ltd, Finland

Valmistamme pääasiassa asiakkaan dokumenttien mukaisia ferriittisydämissiä keloja ja muuntajia sekä muita käämikomponentteja, joihin tuotantovälineemme soveltuvat.

Suunnittelu – Protosarjat – Sopimusvalmistus

We manufacture many kinds of transformers, coils and other wound components, mainly according customer's specification. These components are often ferrite based, but also other suitable types for our production are welcome.

Design – Prototype kits – Contract manufacturing
